James Pappas
Deep Water Production Systems Coordinator
Devon Energy Corporation

“

**When Kvaerner Oilfield Products
ran our tree at Viosca Knoll 694,
two words instantly came to mind:**

Well done.”

Kvaerner Oilfield Products is dedicated to customer satisfaction. The Devon Energy project at Viosca Knoll 694 is a prime example. Success demanded having a tree installed and operating on-line in a challenging environment. The job was completed on time, and on budget.

Customer satisfaction. That's what Kvaerner Oilfield Products is all about.

Joey Hall
Project Manager,
Pioneer Natural Resources

Through the most technologically advanced facility of its kind in the world, Kvaerner Oilfield Products delivered umbilicals two weeks ahead of schedule, allowing Pioneer Natural Resources to make up for other scheduling setbacks and complete the project on time.

“With KOP on our side for the Harrier Project, we had the best of both worlds: a great product and delivery two weeks ahead of schedule.”

Recently, KOP's responsiveness and manufacturing excellence was put to the test for Pioneer Natural Resources when they purchased umbilicals for their new Harrier Field as well as their Raptor and Tomahawk Fields. In all three cases, the manufacturing process in our new technologically advanced Mobile, Alabama facility went flawlessly. More importantly, our efficiency resulted in all three projects being completed on time or ahead of schedule. Cost-effective, field proven solutions delivered on time. That's the KOP advantage.
